Date: 08-22-2025

Public Notification

MONITORING VIOLATION OF WATER TESTING SCHEDULE

Our water system violated a drinking water standard(s) over the past year. Even though these were not emergencies, as our customers, you have the right to know what has happened and that we have corrected these situations.

We, the City of Jewell Public Water Supply (#4027010) are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether our drinking water meets health standards. During the second quarter, (4/1/25 to 6/30/25), 3 samples were not conducted in a allowed time given. These samples are for **Ammonia, Nitrates as well as **Nitrites**. Therefore, we cannot be sure of the quality of our drinking water at this time.**

What should I do?

There is nothing to do at this time!

What happened? What is being done? Public Works missed a sampling deadline for **Ammonia, Nitrates/ Nitrites** in the allowable time frame set by the state offices. Samples now have been taken on 08/20/2025.

For more information, please contact- Terry Anderson, Public Works 515-836-8144
